Mrs. Carter,

For your years of devoted service to Huntington Intermediate School, its students and staff, we, the H.I.S. Yearbook staff dedicate the 1976-77 VAL-HALLA to you, with our deepest love, admiration and thanks.

Mrs. Carter helped many students in many ways.

DOMINANT POSITION

LEGACY

STAIR

PRINCIPAL'S MESSAGE

A great writer once wrote, "The difference between average people and top people is that top people did what was expected of them--and then some more." The meaning of this message is quite clear. Too many of us spend our time doing as little as possible, rather than maximizing our efforts and experiencing the true fruition of our innate abilities.

It is my fervent hope that your years at Huntington Intermediate School have been inspiring and motivating to you in your scheme to develop to the fullest your dreams, your ambitions and your life. The words ambition, dream and life sound like words from the never-never land of a fairy tale. But, they can become meaningful parts of your lives if you strive for excellence, set a straight course and don't let the tides of despair, neglect and stagnation be a hinderance to your fulfillment.

One Senior High School graduating class selected for their motto "Less Than Our Best Is Failure." If all of you take this motto seriously, no one will ever be able to say that the members of the Freshman class of 1976-77 shirked their duties and lost their sense of direction.

Life is yours and no one can live it for you. The best that mom, dad and others can do for you is provide encouragement, wisdom, advice, love, and necessities. You must have the internal fortitude to grab life, shape it, mold it, do your best, and accept the finished product without blame or guilt.
